

zehnder stella

The Zehnder Stella designer radiator is manufactured from high quality V4A stainless steel. It is formed from horizontal round-section pipes, Ø 22 mm, invisibly welded, with vertical collectors of square-section pipe 30 x 30 mm. Heating capacity according to EN 442, with CE-marking.

Flow/return connection at the base of the collector tubes, with vertical 1/4" air vents. Surface: matt ground. Aesthetically shaped wall supports with a stainless steel appearance are supplied within the packaging.

Material: stainless steel
 Operating pressure: up to 13,5 bar
 Connection: from below, G 1/2"
 The radiators are supplied ready for installation, complete with original mounting brackets.

Model	Number of tubes	Overall height (mm)	Overall length (mm)	Heat capacity (W)	
				$\Delta T=50K$	$\Delta T=60K$
