Overview of models

Product description

A new level of purism: with its flat, minimalist design the Zehnder Fina Spa blends into any modern bathroom. The radiant heat from the large heating surface provides comfortable warmth in no time. The design is complemented by the linear towel rail, which keeps towels beautifully warm at all times.

Benefits

- Elegant, unobtrusive design
- Hygienic and easy to clean
- Side panels for clean look
- Connections can be placed from below to suit any dimension
- One or more individually height-adjustable towel rails

Connection to central heating system

Spa version, painted, with chrome-plated towel rail
