

zehnder *stalox*

zehnder

Zehnder Stalox is formed from horizontal round-section pipes, invisibly welded, with vertical collectors of square-section pipe. Zehnder Stalox joins round horizontal pipes with square section vertical pipes in a reduced manner. In pure form, in real stainless steel or enamelled in white or colour, it blends into the current designer bathroom series.

Material: stainless steel
 Operating pressure: up to 13,5 bar
 Connection: from below, G 1/2"
 The radiators are supplied ready for installation, complete with original mounting brackets.

Advantages

- Optical effect for purists
- Reduced to the essential shape and material
- Classical manifolds of square-sections
- Low construction depth
- Generous recesses
